

# STEDI-FLO™ Rotating Vibratory Feeder - Electric - Series 908

This Kraus STEDI-FLO™ Two-Mass Vibratory Feeder is used as a foundry charge feeder to charge scrap metal into a melting furnace. The feeder includes a special gear operated rotating base to feed two different furnaces as required.

Also incorporated is a counterbalanced base to isolate the counteracting forces of the vibrating motor feeder and an abrasion resistant and easily replaceable line.

Dimensions and specifications subject to change without notice.  
Kraus Vibratory Equipment® is a registered trademark and STEDI-FLO™ is a trademark of Dynamic Air Inc., St. Paul, Minnesota.
