

STEDI-FLO™ Vibratory Feeder - Electric Series 914

This existing Kraus STEDI-FLO Vibratory Feeder with a suspension mounting system is used for conveying sand and castings from one existing vibratory conveyor to another existing conveyor for a Midwestern foundry.

Features:

- 650 Brinell pan section
- "Ulti-Mount" suspension system for easy and better alignment during installation and operation
- Two heavy-duty, dust-free vibrating motors

Dimensions and specifications subject to change without notice.
